

NAVEEN KUMAR

IT Infrastructure, Cloud and System Engineer

[My Profile](#) Mobile# +91-9412117767 Email: naveen.rajpoot@outlook.com [LinkedIn](#) Pune, MH

Professional Summary

Infrastructure, Cloud and Systems Engineer with 8+ years of experience managing complex enterprise datacenters, cloud environments, and hybrid systems. Proven track record in Linux, Windows, AWS and Azure cloud platforms, and DevOps automation tools (Terraform, Ansible, Docker and GitHub Action). Focused on improving uptime, reducing provisioning time, and creating scalable infrastructure patterns through Infrastructure as Code.

Technical Snapshot

- Design, deploy, configure, and maintain hybrid infrastructure (Azure & AWS).
- Provision and manage compute, storage, networking, and identity services.
- Implement Infrastructure as Code (Terraform).
- Automate infrastructure provisioning and operational tasks using Ansible, Bash and PowerShell.
- Manage cloud security, IAM, Key Vaults, secrets, certificates, and compliance controls.
- Monitor cloud environments, investigate alerts, and resolve incidents.
- Perform root cause analysis (RCA) for complex production issues.
- Design and implement backup, disaster recovery, and high-availability solutions.
- Optimize cloud costs and enforce governance, tagging, and lifecycle policies.
- Support container platforms (Docker, Podman).
- Perform OS administration for Linux and Windows cloud workloads.
- Execute cloud migrations and modernization projects.
- Create and maintain technical documentation, SOPs, HLDs, and LLDs.
- Conduct security remediation and patching activities.
- Collaborate with application, security, network, vulnerability and infrastructure teams.
- Mentor junior engineers and provide technical leadership.
- Drive reliability, scalability, performance, and operational excellence initiatives.

Technical Expertise

- Linux (Red hat/SUSE/CentOS) Server Administration
- Windows Server Administration (2012, 2016, 2019, 2022, 2025)
- Ansible, Docker, Podman, Kubernetes, Terraform
- AWS and Azure Cloud
- GitHub & GitHub Actions

Work Experience

CENCORA BUSINESS SERVICES INDIA PVT. LTD., | Engineer II - IT Infrastructure April 2025 – Present | Pune
Hybrid (Cloud and On-Perm) Datacenter Technical Operations and Resource Provisioning (Azure Cloud, Linux, VMware, Windows, Ansible, Terraform, MECM, GitHub Actions).

ZENSAR TECHNOLOGIES LIMITED, | Technical Specialist March 2024 – April 2025 | Pune
Hybrid (Cloud and On-Perm) Datacenter Technical Operations and Resource Provisioning (Azure Cloud, Linux, VMware, Windows, Ansible, Terraform, MECM, GitHub Actions).

INSPIRA ENTERPRISE INDIA LIMITED, | Sr. Server Engineer September 2021 – March 2024 | Lucknow
Datacenter Technical Operations (Linux, VMware, Windows, Ansible, SAN Storage, Virtual Tape Library and Backup).

PROIND BUSINESS SOLUTIONS PVT. LTD., | System Administrator July 2021 – August 2021 | Noida
Roles have not been assigned (on bench).

MAHINDRA DEFENCE SYSTEMS LIMITED, | Analyst - Server Administrator October 2019 – July 2021 | Ajmer
Datacenter Technical Operations (Linux, VMware, Windows, SAN Storage, Virtual Tape Library and Backup).

REALTYACRES REAL ESTATE PVT. LTD., | System Administrator

July 2018 – September 2019 | Noida

AWS Cloud and On-Perm Datacenter Technical Operations (Linux, VMware, Windows, AWS, GCP and Backup) & Corporate IT Support.

IMS GHAZIABAD, | System Executive

September 2017 – July 2018 | Ghaziabad

As IT Executive handled all IT Task i.e., Server Support & Administration (Linux, Windows, Database and Hardware).

June 2016 – June 2017 | Noida

As IT Executive handled all IT Tasks, i.e., Server and Workstation Support (Linux, Windows, and Hardware).

VEIRA ELECTRONICS PVT. LTD., | Quality Engineer cum Desktop Support Engineer

January 2014 – February 2016 | Noida

Ubuntu Linux OS and Application Support and Quality Assurance for LED TV production.

Education

Bachelor of Technology in Electronics & Communication Engineering

Uttar Pradesh Technical University, Lucknow 06/2010 – 06/2014 | Lucknow

Certification

- RED Hat Certified System Administrator (RHCSA) - Completed
- VMware Certified Technical Associate - Data Center Virtualization - Completed
- AWS Certified Sys Ops Administrator – Associate - Completed
- Microsoft Certified Solutions Associates – Completed
- Azure Administrator Associate (AZ-104) – In-process
- Azure Solutions Architect Expert (AZ-305) – Target

Professional Skills

- Individual Contributor
- Time Management
- Strong Problem Solver
- Leadership and training
- Planning and Forecasting
- Team Player
- Attention to Details
- Resource Management
- Effective Communication
